1 DSH71SS

68,200 BTU (20kW) 230V Stainless Steel Diesel/Kerosene Space Heater

For use in open and semi-open locations only. Direct combustion of fuel, as the exhaust gases are mixed with air they are discharged to give a high heat output. Fitted with a digital LCD panel and integral thermostat allowing the user easy temperature control. High performance stainless steel burner assembly. Complete with flame safety device and dual fuel filter. Fitted with a cable and approved plug. Carton packed on pallet.

Specification:

Motor	... 150W		
Max. heat output	... 68,200 BTU(20kW)		
Air Flow	... 500cfm (14,160L/min)		
Dimensions (approx.):		Max. fuel consumption	... 1.87Kg/h
Length	... 690mm	Tank capacity	... 21.5L
Diameter	... 400mm	Suggested heating area	... up to 8900cu. ft
Height	... 520mm	Weight	... 24kg

2 DSH102SS

102,420 BTU (30kW) 230V Stainless Steel Diesel/Kerosene Space Heater

For use in open and semi-open locations only. Direct combustion of fuel, as the exhaust gases are mixed with air they are discharged to give a high heat output. Fitted with a digital LCD panel and integral thermostat allowing the user easy temperature control. High performance stainless steel burner assembly. Complete with flame safety device and dual fuel filter. Fitted with a cable and approved plug. Carton packed on pallet.

Specification:

Motor	... 200W		
Max. heat output	... 102,420 BTU (30kW)		
Air Flow	... 590cfm (14,713L/min)		
Dimensions (approx.):		Max. fuel consumption	... 2.44Kg/h
- Length	... 880mm	Tank Capacity	... 33L
- Diameter	... 450mm	Suggested heating area	... up to 17,000cu. ft
- Height	... 630mm	Weight (approx.)	... 35kg

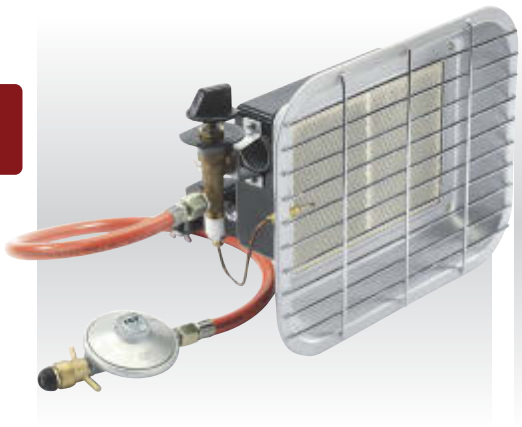
NEW



3 PSH05B

17,000 BTU (5kW) Propane Bottle Mounted Ceramic Space Heater

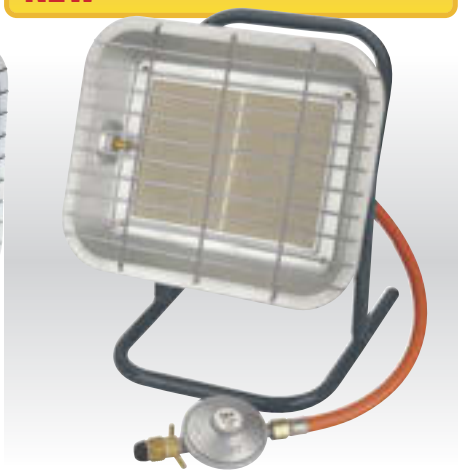
Bottle mounted design utilizes waste propane left in gas bottles when there is insufficient product to operate a larger output heater. Fitted with a high performance ceramic heated element. Supplied with hose and cable and approved plug. Carton packed.

Specification:

Max. heat output	... 9,200-17,000 BTU(2.7-5kW)
Gas hose length	... 700mm (approx.)
Max. gas consumption	... 0.216- 0.4kg/hr

Stock No.	Box Qty	Price each
24588	–	£52.26P

NEW



4 PSH05FS

17,000 BTU (5kW) Propane Free Standing Ceramic Space Heater

Free standing design utilizes the remaining propane left in gas bottles with insufficient pressure to operate larger output heaters. Fitted with a high performance ceramic heated element. Supplied with hose and cable and approved plug. Carton packed.

Specification:

Max. heat output	... 9,200-17,000 BTU(2.7-5kW)
Gas hose length	... 700mm (approx.)
Max. gas consumption	... 0.216- 0.4kg/hr

Stock No.	Box Qty	Price each
24587	–	£59.72P

NEW

5 PSH-ADPT

Adaptor for Propane Gas Cylinders

Solid brass adaptor for connecting a gas regulator to UK propane cylinders. Sold loose.
